DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed 5/30/07 cites U.S. Patent 3,789,901. This patent is titled "Method and Apparatus for Inflating Tubeless Tires and the Like." This subject matter is not germane to the invention.

Claim Rejections - 35 USC § 103

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 8, 14-20 and 23-29 are rejected under 35 U.S.C. 103(a) as being unpatentable over BASF DE 4209029, in view of Trivedi 4,459,381, with Taubitz et al. 4,618,633, Muench et al. 4,632,946 or Blount 6,054,515 used as evidence.
4. All references have been discussed already in previous Office actions. BASF discloses a minimum of 5% PPE, a minimum of 1% Antiblaze 19, styrene as the vinylaromatic monomer which is polymerized and a rubber particle size of 0.2-2.0 microns. Trivedi states in column 9, lines 39-47, that using less flame-retardants results in substantial saving in costs and improved physical properties. The tertiary references show the formulae for the Antiblaze compounds. It would have been obvious to one having ordinary skill in the art; at the time the invention was made, to use the minimum amount of flame-retardant in the compound of BASF and to select Antiblaze 19 from a list of equivalents. "Consisting essentially of" is not "consisting of". PPE does not deleteriously affect the flame-retardance of the composition.

Allowable Subject Matter

5. Claims 1 and 5 are allowed.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
